**April 2008**

**FedChem's Statement on REACH**

FedChem fully supports the Registration, Evaluation, Authorization, and Restriction of CHemicals (REACH) objectives of improving the chemical regulatory system, including protection of human health and the environment as well as increasing knowledge on hazards and risks of chemical substances.

FedChem is pleased to inform its customers that we intend to comply with all REACH regulations as they apply to our products. We are aware the pre-registration period will be from June 1, 2008 until November 30, 2008. The preparation for this timeline is currently underway and ultimately working toward full registration as outlined in the regulation.

FedChem is focusing on working closely with our customers and suppliers to optimize the implementation and minimize any business disruption due to the legislation. I will be the direct contact for REACH so please feel free to contact me with any questions.

We appreciate your patience at this time.

Kind regards,

Jennifer McIlhaney  
Regulatory Compliance Administrator  
FedChem LLC
